Although we won't be attending **Agri Africa** in person, NomaCool is eager to showcase our **PIR sandwich panels** remotely as a powerful solution for enhancing agricultural infrastructure across Africa.

NomaCool PIR panels: The ideal choice for African Agriculture

NomaCool's **PIR sandwich panels** are designed to meet the specific needs of Africa's agriculture sector, offering:

- **Thermal efficiency:** Our panels have superior **U-values**, providing excellent insulation to regulate temperature efficiently. The lower the value, the better!
- **Fire resistance:** With a **fire class B-S2-D0** rating, our panels are designed for high fire safety standards, ensuring the protection of agricultural facilities.
- **Long-term durability:** Built to endure the demanding conditions of the agricultural environment, our panels are both robust and reliable.

Why choose NomaCool at Agri Africa

As **Agri Africa** focuses on transforming agriculture in Africa, NomaCool's **PIR panels** stand out as an innovative solution to support this transformation:

- **Energy efficiency:** Featuring low U-values, our panels reduce energy consumption, helping to lower costs and promote sustainable practices.
- **R-value excellence:** Our panels provide **high R-values** (up to **5.58 m²K/W**), creating optimal storage conditions for perishable goods.
- **Fire safety:** With our **fire-resistant** technology, your agricultural infrastructure is protected from potential fire hazards, ensuring a safe environment.

Support Africa's agricultural growth with NomaCool

The agricultural sector in Africa is primed for growth, and NomaCool's PIR panels are perfectly positioned to support this growth by providing modern, sustainable infrastructure solutions:

- **Sustainability and energy efficiency:** Our **PIR panels** offer energy-saving solutions, improving the **sustainability** of agricultural operations.
- **Enhanced productivity:** By using advanced insulation materials, our panels help improve storage and processing conditions, leading to better yields and reduced waste.

Agri Africa: Advancing agricultural innovation

NomaCool is committed to support Africa's agricultural transformation. With our **PIR panels**, we provide solutions that help modernize infrastructure, increase productivity, and contribute to food security.

To learn more about how NomaCool's **PIR panels** can revolutionize your agricultural infrastructure, get in touch with us today. Send an email to info@nomacool.be.
